

Biography

Eva Martinez is the Vice President of In-Service Support with PAL Aerospace. As such, Eva is responsible for leading and directing all in-service support activities including set-up and execution of the Fixed Wing Search and Rescue contract with Airbus Defence and Space and the Royal Canadian Air Force/Department of National Defence. Eva maintains heavy interaction with external and internal customers relying on strong aerospace experience in addition to a deep understanding of supply chain management, logistics, training, maintenance, team leadership, and supplier/customer relations. She is responsible for developing a strategic plan to advance PAL Aerospace's ISS operations with a view to improve, grow, and capture future opportunities.

Eva boasts an extensive and varied 30-year career in the Aerospace industry, including 13 years in the Royal Canadian Air Force. Her formal education includes a Bachelor of Engineering (Engineering Management) from the Royal Military College of Canada, an Aerospace Engineering Certification from the Canadian Forces School of Aerospace Technology and Engineering, and a Program Management Associate's Certificate from George Washington University.

Eva is presently on the Board of Directors (as Vice President) for Women in Aerospace Canada and has started a branch in the Atlantic region in an effort to expand women's opportunities for leadership and career development in the aerospace community and further grow the professional network across the country.
