

**Lorraine Ben**

Chief Executive, Lockheed Martin Canada and  
Regional Vice President Latin America

Lorraine Ben was appointed Chief Executive for Lockheed Martin Canada in June 2019, becoming Lockheed Martin's first female to take the helm of a Chief Executive role internationally. In 2021, Lorraine's portfolio expanded to include Latin America, as the Regional Vice President.

Lorraine is passionate about women in leadership and has made a commitment to help broaden Lockheed Martin Canada's diversity and inclusion, while highlighting the benefits of giving all Canadians a seat at the table. As a significant step in 2021, Lockheed Martin Canada is participating in the Government of Canada's 50-30 challenge to increase the representation and inclusion of diverse groups within their workplace.

Lorraine is Executive Co-chair for Lockheed Martin's Women Impact Network that provides a spectrum of thoughtful and relevant programs to employees across the organization through intersectional advocacy, professional development and active allyship. She is also an Executive Inclusion Council Member, serving to reinforce diversity and inclusion strategies as imperative business drivers.

Under her leadership, Lockheed Martin Canada and Latin America teams are responsible for delivering on country-specific strategies, maintaining and strengthening strategic customer and partner relationships and partnering with business areas on key pursuits, program campaigns and government relations.

Lorraine rejoined Lockheed Martin Canada in August 2015 as Director of Business Development and Strategy. In this role, she was responsible for the development and execution of strategies to grow the business and strengthen customer relationships.

Prior to returning to Lockheed Martin Canada in 2015, she served in a variety of Business Development Executive roles with Lockheed Martin in Owego New York, TELUS Corporation, Accenture and IBM.

Lorraine graduated from Laurentian University in Canada with a bachelor's degree in English/Law.
