

Mr. Couillard is the Vice President of Global Product Engineering at CAE and leads the teams involved in the design and development of training products and solutions that strengthen security, efficiency, and readiness in the Civil Aviation, Healthcare and Technology groups.

For more than 30 years Philippe has led large multidisciplinary teams in the design, implementation, and commissioning of complex, mission-critical software systems in the aerospace, air traffic control and healthcare fields. In addition to his role as Vice-President of Global Product Engineering, Philippe created the *Lab52*, CAE's technology incubator.

Philippe has a Bachelor's in Engineering Physics from Université Laval and a Master's in Mechanical Engineering from Polytechnique Montréal.
